On behalf of Valencia High School's girl's volleyball program, I am writing to request your help. With funds from the District office being cut year after year it is increasingly difficult to put on quality athletic programs. As has been customary for the past several years each player's family spends approximately \$600 to \$800 in order for their daughter to play in a public high school sports program.

The purpose of this letter is to ask you to contribute to the volleyball fund. All money received will be used to provide uniforms, equipment, and transportation to the varsity, junior varsity and freshmen teams.

Valencia High School girl's volleyball team has had an impressive track record. Winning eight league championships in ten years including the last seven in a row, advancing to the CIF playoffs for 11 years in a row, and 15 of our graduating seniors going on to play collegiate volleyball makes this program one of the most successful in the Santa Clarita valley.

Valencia High School girl's volleyball teams will continue to strive to be the very best and with your help that success is possible.

Thank you for your support,
